Pennsylvania Milk Lapel Pin
ORDER FORM

Milk was designed the official State Beverage of Pennsylvania in 1982.

The first Milk Control Law was enacted January 2, 1934, amended April 30, 1935, and replaced April 28, 1937, when the Pennsylvania Milk Control Commission was established as a permanent state government agency. The creation of the Milk Control Commission was an outgrowth of the chaotic marketing conditions existing in the 1930s. During this time prices paid to milk producers fell to one dollar per hundredweight or lower. Home delivered milk was \$.10 per quart. Pricing wars and destructive competitive practices were prevalent in many markets.

Since the original legislation, several amendments and improvements have been made. These changes allow Pennsylvania to manage more effectively the marketing of milk and promote the interests of Pennsylvania consumers. In 1968 the Law was amended and re-named the Milk Marketing Law.

Pennsylvania ranks 7th Nationally in total milk production, with nearly 520,000 cows producing more than 10.6 billions pounds of milk annually.
